PROFESSIONAL SUMMARY

Motivated BICT Undergraduate with a strong foundation in modern web development, UI/UX design principles, and software engineering. Passionate about transforming creative concepts into responsive, user-friendly, and high-performing digital interfaces. Eager to leverage technical skills, problem-solving abilities, and a continuous learning mindset to contribute effectively to innovative technology projects and deliver seamless user experiences.

EDUCATION

Bachelor of Information and Communication Technology (BICT Hons)

University of Vavuniya, Sri Lanka | Present / Expected Graduation

- **Relevant Coursework:** Modern Web Development & Front-End Technologies, Software Engineering Principles & OOP, UI/UX Design & HCI, Database Management Systems (DBMS), Network Fundamentals & IT Security.
- **Academic Highlights:** Consistently engaged in practical software development assignments, hands-on projects, and expanding core technical competencies alongside academic studies.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, C#, Java, Python, JavaScript (ES6+)
- **Web Technologies:** HTML5, CSS3, Responsive Web Design
- **Databases:** SQL, Database Queries, Database Management Systems (DBMS)
- **Software & Tools:** VS Code, Git & GitHub, Figma (UI/UX), Visual Studio, Eclipse, .NET Framework, Arduino IDE, AutoCAD Map 3D
- **Core Competencies:** Object-Oriented Programming (OOP), Data Structures, UI/UX Prototyping & Wireframing

FEATURED PROJECTS

1. Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript, Git & GitHub

- **Overview:** Designed and developed a fully responsive, modern web portfolio from scratch to showcase academic background, skills, and projects for professional opportunities.
- **Key Contribution:** Designed full UI layout, implemented responsive styling for desktop and mobile, and managed version control via GitHub.

2. Student Management System

Technologies: C# / Java, SQL, Relational Database Management System

- **Overview:** Developed a desktop application to securely store, update, and retrieve student records and academic data efficiently.
- **Key Contribution:** Implemented core backend logic using OOP principles and handled database connectivity and queries for record management.

3. University Task & Event Manager

Technologies: Python / JavaScript, HTML/CSS, Figma

- **Overview:** Created an interactive task manager application that helps students track assignments, lectures, and university schedules with reminders.
- **Key Contribution:** Designed user-friendly UI wireframes in Figma and built front-end interfaces ensuring smooth user interaction.

EXPERIENCE & LEADERSHIP ACTIVITIES

- **Volunteering & Community Service:** Actively participated in community development initiatives and university-led social service programs, providing basic IT awareness and technical support.
- **Leadership Roles:** Served as Team Lead / Student Coordinator for academic group projects and university club activities, coordinating tasks, timeline management, and team communication.
- **Competitions & Hackathons:** Participated in university-level coding challenges and collaborative hackathons, developing quick problem-solving prototypes under time constraints.
