PROFESSIONAL SUMMARY

Motivated BICT Undergraduate with a strong foundation in modern web development, UI/UX design principles, and software engineering. Passionate about transforming creative concepts into responsive, user-friendly, and high-performing digital interfaces. Eager to leverage technical skills, problem-solving abilities, and a continuous learning mindset to contribute effectively to innovative technology projects and deliver seamless user experiences.

EDUCATION

Bachelor of Information and Communication Technology (BICT Hons)

🏛️ University of Vavuniya, Sri Lanka | *Present / Expected Graduation*

- **Relevant Coursework:** Modern Web Development & Front-End Technologies, Software Engineering Principles & OOP, UI/UX Design & HCI, Database Management Systems (DBMS), Network Fundamentals & IT Security.
- **Academic Highlights:** Consistently engaged in practical software development assignments, hands-on projects, and expanding core technical competencies alongside academic studies.

TECHNICAL SKILLS

💻 **Languages**	C, C++, C#, Java, Python, JavaScript (ES6+), HTML5, CSS3
🛠️ **Tools & Frameworks**	VS Code, Git & GitHub, Figma, Visual Studio, Eclipse, .NET Framework, Arduino IDE
⚙️ **Technical Competencies**	Responsive Web Design, OOP, DBMS (SQL), UI/UX Wireframing & Prototyping
🤝 **Soft Skills**	Effective Communication, Teamwork & Collaboration, Problem-Solving, Time Management

FEATURED PROJECTS

1. Personal Portfolio Website — Web Development

Technologies: HTML5, CSS3, JavaScript, Git & GitHub

- **Problem & Solution:** Designed and developed a fully responsive web portfolio to present academic background, skills, and projects professionally.
- **Contribution:** Structured semantic HTML5 layout, custom CSS flex/grid styling, responsive views, and active scroll highlights.

2. Student Management System — Desktop / Database

Technologies: C# / Java, SQL, Relational Database Management System

- **Problem & Solution:** Built a system to digitize student records and grades, eliminating manual tracking errors and improving retrieval speed.
- **Contribution:** Implemented backend OOP business logic and authored database queries for data manipulation.

3. University Task & Event Manager UI/UX & App

Technologies: Python / JavaScript, HTML/CSS, Figma

- **Problem & Solution:** Created an interactive task manager for students to organize assignments, schedules, and event reminders.
- **Contribution:** Prototyped wireframes in Figma and built responsive front-end components.

EXPERIENCE & ACTIVITIES

- 🤝 **Volunteering & Service:** Participated in community development initiatives and university tech awareness workshops.
- 🌟 **Leadership Roles:** Team Lead / Student Coordinator for academic project groups, coordinating tasks and timelines.
- 🏆 **Competitions & Hackathons:** Contributed to university coding challenges and prototype building under time limits.
